

Gudina Ware

Information Scientist & Software Developer

gudinaware2622@gmail.com +251 92 622 9195 Shashamane, Ethiopia

[Portfolio](#) [LinkedIn](#) [GitHub](#)

PROFILE

Information Science student and software developer skilled in building full-stack MERN and PHP/MySQL applications, with hands-on experience in AI-assisted features, secure authentication, and REST APIs. Strong problem-solver, fast learner, and effective collaborator on team projects. Passionate about building impactful, user-focused software.

EDUCATION

Bachelor of Science in Information Science

Ethiopia, Jimma

Jimma University — Faculty of Computing & Informatics

PROFESSIONAL EXPERIENCE

Website Developer

June 2026 – Present

Sidama Technology and Innovation Agency

Sidama, Ethiopia (Remote)

- Engineered the Intelligent Job Matching and Recruitment Automation Platform, a full-stack MERN application with AI-powered resume parsing and semantic job matching
- Built role-based JWT authentication supporting separate employer, job seeker, and admin dashboards
- Designed a secure REST API backed by MongoDB to power resume uploads and an AI recommendation engine

PROJECTS

Online Student Voting System

Secure online voting platform for university student union elections, built with PHP, MySQL, HTML5, CSS3, and JavaScript. Features bcrypt password hashing, PDO prepared statements, CSRF protection, and a full admin dashboard for managing elections, candidates, and voters.

Online Book Store Website

Responsive book store website built with HTML, CSS, and JavaScript, featuring book search, a user-friendly browsing interface, and mobile-responsive layout.

Super Market

Responsive e-commerce style website built with HTML, CSS, and JavaScript, deployed on Vercel.

Guess My Number Game

Interactive browser game built with JavaScript and DOM manipulation, featuring real-time feedback and score tracking.

SKILLS

Programming Languages

JavaScript, TypeScript, Python, C#, SQL

Frameworks

React, Bootstrap, Node.js, Express.js

Databases

MongoDB, MySQL

Version Control

Git and GitHub

Tools & DevOps

Docker, VS Code, Postman, Figma

Concepts

REST APIs, JWT Authentication, Responsive Design, Object-Oriented Programming, Database Design

Soft Skills

Strong problem-solver and fast learner, with effective communication and collaboration in team environments.
